SUMMARY

Full-Stack Developer with experience in building responsive web and mobile applications through academic and freelance projects. Skilled in React, Flutter, Spring Boot, WordPress, and REST API development, with a focus on creating scalable, user-friendly solutions for real-world business needs.

SKILLS

- **Frontend** : HTML, CSS, React, Flutter
- **Languages** : Java, Python, JavaScript
- **Backend**: Spring Boot, Node.js, REST APIs
- **CMS** : WordPress, Elementor
- **Databases** : MongoDB, MySQL
- **Tools** : Git, GitHub, VS Code, Figma

EXPERIENCE

Full-Stack Developer (Freelance / Project Experience)

Chennai, India | 2025 – Present

- Developed the **Apollo Peripherals** corporate website using WordPress and Elementor, creating responsive business pages with modern UI/UX and SEO optimization.
- Collaborated with the client to gather requirements, customize layouts, and deliver a production-ready website.
- Built a Flutter-based sales management application integrated with Spring Boot REST APIs for customer management, sales tracking, and reporting.

PROJECTS

Apollo Peripherals Corporate Website (WordPress, Elementor, SEO, UI/UX)

- Developed a responsive corporate website for an IT infrastructure company using WordPress and Elementor.
- Optimized on-page SEO with Rank Math and delivered a modern, mobile-friendly user experience.

RIT College Library Management System (HTML, CSS, JavaScript, MongoDB, Python)

- Developed a web-based library management system to automate book issue/return and student entry records.
- Improved operational efficiency with an intuitive interface and database-driven workflows.

RIT Student Data Entry Portal (React, Node.js, Express.js, MongoDB, Figma)

- Built a student data entry portal serving 1,800+ students with a responsive React-based interface.
- Implemented form validation, REST API integration, and supported 200+ concurrent users during live operation.
